6.d.A. Other practitioners' services.

Mental health services coverage is limited to those provided by the following mental health professionals within the applicable scope of licensure:

- (1) psychiatrist;
- (2) licensed psychologist;
- (3) licensed psychological practitioner;
- (4) licensed independent clinical social worker;
- (5) registered nurse with:
 - (a) certification as a clinical nurse specialist in psychiatric and mental health nursing; or
 - (b) a master's degree in nursing or one of the behavioral sciences or related fields, with at least 4,000 hours of post-master's supervised experience; and
- (6) licensed marriage and family therapists with at least two years of post-master's supervised experience. Covered Medicaid mental health services do not include marriage counseling.

Mental health services are subject to the same limitations as psychiatric services described under Item 5.a., Physicians' services.

~~Community mental health center services are services provided by a facility that meets the requirements of Minnesota Statutes, §256B.0625, subdivision 5.~~

~~The community mental health center must be licensed under Minnesota Rules, parts 9520.0750 to 9520.0870 to provide mental health services under the clinical supervision of a mental health professional who is licensed for independent practice at the doctoral level, or by a board-certified psychiatrist, or a psychiatrist who is eligible for board certification.~~

~~Community mental health center services are furnished by a private nonprofit corporation or a governmental agency and must have a community board of directors. Providers must be capable of providing the services to recipients who are diagnosed with both mental illness or emotional disturbance and chemical dependency, and to recipients dually diagnosed with a mental illness or emotional disturbance and mental retardation or a related condition.~~

Components of Mental Health Community Support Services

A mental health professional, a mental health practitioner under the clinical supervision of a mental health professional, and a mental health rehabilitation worker under the direction of a mental health professional or mental health practitioner and under the clinical supervision of a mental health professional must be capable of providing the following two components:

1. Basic living and social skills, which may include:

- A. Communication skills.
- B. Budgeting and shopping skills.
- C. Healthy lifestyle skills.
- D. Household management skills.
- E. Transportation skills.
- F. Medication monitoring.
- G. Crisis assistance skills, including relapse prevention skills and developing a health care document.

2. Consultation with relatives, guardians, friends, employers, treatment providers, and other significant people, in order to change situations and allow the recipient to function more independently. The consultation must be directed exclusively to the treatment of the recipient.

A physician, pharmacist and registered nurse must be capable of providing medication education. Medication education includes training the recipient in the symptoms of mental illness, discussing the benefits and side effects of psychotropic medication, and discussing the importance of medication compliance. Medical education enables the recipient to better manage the symptoms of mental illness, allowing the recipient to return to independent functioning with less chance of relapse.
